MONIES Training Classes

MONIES (Management of Network Income Expense Services) is the database program utilized by Central Management Services (CMS) to process, inventory, and bill all telecommunications products and services.

Inquiry into MONIES will allow you to:

- Check the status of your TSRs and TDRs
- Verify your inventory of voice and data equipment
- Review your monthly bills (the three most current months are available on-line)
- View your departmental and alphabetical state telephone directory database

MONIES 101 is for people who have not had prior MONIES training. Coordinators are taught:

- How to log on to MONIES and negotiate within the application
- How to do simple searches to answer questions about your inventory

MONIES DIRECTORY is for Coordinators who maintain their agency departmental and alphabetical listings in the State of Illinois Telephone Directory. All agencies with access to MONIES through the CMS Data Center are required to make their own updates to both the departmental and alphabetical listings. Coordinators must have completed MONIES 101 prior to enrolling in MONIES DIRECTORY. MONIES training will be offered on the dates and times listed below:
